

# VAN BODY PRODUCTS

LTF | Tie Downs | Scuff | Van Liner

## STRATEGIC INVENTORY LOCATIONS

Nova's Industrial Division offers a full line of products to support our OEM Van Body customers. With strategic inventory locations positioned across North America, we are the ideal partner to help you manage supply chain challenges.

## LTF - LAMINATED TRUCK FLOORING

Nova's Laminated Truck Flooring (LTF) is made with high-quality tropical hardwood, specifically selected for consistent density and mechanical properties. Our LTF offers exceptional durability and strength for demanding transportation needs. Engineered to withstand heavy loads and resist wear, our LTF is available in 1-1/8" and 1-3/8" thicknesses, and in custom width kits designed to perfectly fit your application. The lamination process enhances resistance to moisture and environmental factors, making it a superior choice for both dry vans and van bodies.

## SCUFF BOARDS & TIE DOWNS

Scuff liners and tie-downs are essential components for maintaining the integrity and functionality of your trailers interior. Scuff liners installed along the lower interior walls, act as a protective barrier against damage from shifting cargo. Complementing scuff liners, tie-downs secure loads during transit, preventing movement that could lead to damage or safety hazards. Nova provides durable scuff liner and tie-down options to extend the lifespan of your trailer and ensure the safe and secure transportation of goods.

## VAN LINER PLYWOOD

Van Liners are essential for protecting your vehicle's interior from daily wear and tear, ensuring a professional appearance and extending the lifespan of your investment. Nova's liners shield the van's walls and ceilings from dents, scratches, and other damages caused by shifting cargo or equipment. Van liners also provide insulation against temperature variation.
